

**SUMMARY OF COVID-19-RELATED SAFETY REQUIREMENTS AND  
PROCEDURES** Darrah Blanton Dance, in-studio classes: Love to Move Studioz,  
Bellingham

We require that all adults in the primary household of each student are fully vaccinated against COVID-19. This also applies to any adults who participate in the parent/toddler classes. Proof of vaccination must be emailed to [darrahblanton@hotmail.com](mailto:darrahblanton@hotmail.com) upon enrollment.

Our teachers are fully vaccinated. They will follow the same safety guidelines we are asking of students (mask wearing, home temperature checks, etc.). The studio and bathroom are cleaned regularly and high-touch surfaces are wiped down before and after each class. Hand sanitizer will be available. There are HEPA air filters in each studio at Love to Move.

Prior to program start, please notify Darrah Blanton if any members of the household are experiencing COVID-19 symptoms or have had possible exposure to COVID-19.

You and your family should maintain distance as much as possible at drop-off and pickup. Only one adult per student should be doing drop-off/pickup.

**Regardless of vaccination status, we require that all adults doing drop-off and/or pickup wear a mask, to protect our unvaccinated students.**

Please do not arrive more than 5 minutes before the start time of your child's class in order to allow for transition time between classes. Drop-offs and pickups should be quick--please do not linger in the building. For now, we are suspending our usual "parent watching time" at the end of each class. We hope to resume this once our students have the opportunity to be vaccinated.

**By bringing your child to Darrah Blanton Dance programs, you are attesting that the program participant is not experiencing COVID-19 symptoms AND the participant(s) have not been in close contact with anyone with confirmed COVID-19 or had a positive COVID-19 test in the last 10 days, AND a public health or medical professional has not recommended the participant(s) or household members self-monitor, self-isolate, or self-quarantine due to concerns about a COVID-19 infection.**

Participants should wear a clean mask that covers the nose and mouth to each class and bring a back-up mask and personal hand sanitizer. We will have hand

sanitizer available. Regardless of vaccination status, we require that all adults doing drop-off and/or pickup wear a mask, to protect our unvaccinated students.

Please check your child's temperature at home before coming to class each week.

Participants will be asked to sanitize their hands upon arrival and at the end of class.

Please make sure your child has used a restroom shortly before class. We thank you in advance for taking care of bathroom needs as much as possible before class so that disruptions are few.

After class we strongly encourage your family to visit a medical professional if you begin to experience COVID-19 symptoms.

## **SIGNS AND SYMPTOMS OF COVID-19**

If a participant displays any of the signs and symptoms of COVID-19 without an alternative explanation or pre-existing condition, the participant will not be able to attend the class.
